Subject: Completion of Work

Dear Mr. Bruckchen,

Last month you completed the construction of the three culvert pipe crossing on Eglin Air Force Base- Santa Rosa Island. I wish to express my thanks and appreciation. You completed this work under budget and with a sterling safety record with no lost-time incidents or injuries.

I also thank you for always "doing what was right", whether it was fixing minor quality concerns or taking care of safety issues without complaint.

You worked in the classic design/build process and were flexible and cooperative when the plans changed or were modified to meet the owner's needs and budget.

Thanks again and I look forward to working with your company in the future.

Sincerely,

Gary A. Beasley, PMP
